Program Budget Decision Unit: 066 Air National Guard

I. Description of Operations Financed

For Operation and Maintenance (O&M) of the Air National Guard (ANG), including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, repair, and other necessary expenses of facilities for the training and administration of the Air National Guard. Includes repair of facilities, maintenance, and operation of aircraft; transportation of things; hire of passenger motor vehicles; purchase and rental of data processing equipment and service, supplies, materials, and equipment as authorized by law for the Air National Guard. Expenses incident to the maintenance and use of supplies, materials, and equipment, including such as may be furnished from stocks under the control of agencies of the Department of Defense; travel expenses (other than mileage) on the same basis as authorized by law for Air National Guard personnel on active Federal duty, for Air National Guard commanders while inspecting units in compliance with National Guard regulations when specifically authorized by the Chief, National Guard Bureau are also included.

The \$2,654,473,000 budget request for FY 1997 supports price growth of \$47,675,000 and a decrease in programs of \$161,323,000 or - 6.1%. However, this reduction includes functional transfers from the active Air Force totalling \$9,329,000, a decrease of \$11,734,000 for transition benefits in FY 1997, and a reduction for one-time FY 1996 requirements of \$16,500,000. After adjusting for these changes, the Air National Guard will experience a decline in real growth of - 5.1% between FY 1996 and FY 1997. The FY 1997 budget request supports 88 flying units, 347,568 flying hours, and 24,656 civilian end strength. This represents a reduction of 32,637 flying hours and 735 civilian end strength below the FY 1996 current estimate. These decreases are related to the annualization of unit conversions and downsizing actions, as well as, further unit changes and inventory reductions programmed for FY 1997. FY 1996 changes impacting the FY 1997 budget request include the conversion of an F-16 air defense unit to F-15 air defense, F-4G wild weasels to A/OA-10 and C-130E aircraft, RF-4 tactical reconnaissance aircraft to C-130Es, F-15 tactical fighters to B-1B bombers, and downsizing actions at Air National Guard OA-10 tactical fighter units. In FY 1997, four (4) F-16 air defense and one (1) F-16 training unit will convert to F-16 general purpose forces. Each of the former air defense locations, plus twenty (20) existing F-16 general purpose fighter units will downsize from fifteen (15) to twelve (12) aircraft the first quarter of FY 1997 resulting in a loss of seventy two (72) F-16 fighter aircraft. C-130 and OA-10 inventories will also decline further as five (5) C-130 and five (5) OA-10 units are programmed to lose two (2) aircraft each during the fiscal year.

The FY 1997 budget request finances the following activities:

Flying Units	88
Military Technicians and Other Civilians	24,656
Flying Hours	347,568
Primary Assigned Aircraft (PAA)	1,100

Appropriation: ANG, Operation and Maintenance

D. Reconciliation: Increases and Decreases:

- a. Operating Forces budget activity reflects an increase of 889 civilian workyears and 6,207 flying hours that support the impact in FY 1997 of Air National Guard force structure changes that began during FY 1996. These include an increase of two (2) aircraft at the second B-1B bomber unit that converted from F-15 aircraft, a unit conversion to A/OA-10 and C-130E aircraft from F-4Gs, one (1) additional F-15 air defense unit changed from F-16 air defense, and the increase in C-130 operations as one unit converts from RF-4 aircraft. During FY 1997, five (5) additional conversions will occur as four (4) F-16 air defense and one (1) F-16 training unit will convert to F-16 general purpose forces. Mission support growth is attributed to the completion of the transition of the Mobile Ground System space mission into the Air National Guard. Base support and real property maintenance increases are associated with workarounds required at the ANG location converting from F-4G aircraft to a composite A/OA-10 and C-130E unit, and additional base operation requirements at the second B-1 unit. FY 1997 also reflects minor growth in environmental compliance and pollution prevention requirements at various Air National Guard locations.

\$ + 70,744

10. Program Decreases

\$ - 241,396

- a. Reduction in Operating Forces budget activity of 1,531 workyears and 37,348 flying hours is due to the full year impact of conversions from F-4G wild weasels to A/OA-10 and C-130E aircraft, RF-4s to C-130Es, and F-15 tactical fighters to B-1B bombers that occurred during FY 1996. In addition, FY 1997 programmed conversions will change F-16 air defense and training aircraft to F-16 general purpose forces. FY 1997 also reflects the annualized impact of the loss of operational support and OA-10 aircraft in FY 1996, as well as, an additional decrease of seventy two (72) F-16s, ten (10) C-130s, ten (10) OA-10s, and eleven (11) C-26s during FY 1997. Funding is also reduced as a portion of the KC-135 flying hour program will be funded from the Defense Business Operations transportation business area. Mission support decreases are attributed to the purchase in FY 1996 of equipment items and reductions in tactical air control requirements. Real property maintenance reduction reflects the completion of facility maintenance requirements for the second B-1 unit conversion during FY 1996. FY 1997 also reflects a reduction due to the one-time FY 1996 increases during the Congressional budget review.

BUDGET ACTIVITY: OPERATING FORCES01 Category: Air OperationsI. Description of Operations Financed:

This activity includes fuels for flying of Air National Guard mission related aircraft as well as fuels for mission support operations. Also included is the federal portion of Operation and Maintenance expenses for non-Federally owned Air National Guard facilities of which the total cost is shared by the states. Additionally, the operating forces budget activity provides for civilian personnel, including military technicians who carry on the day-to-day training, maintenance, and administration of the Air National Guard; transportation cost for training conducted at deployed locations; per diem, communications; miscellaneous services and equipment; and medical support and supplies. These are required to provide the facilities, equipment, and day-to-day staffing needed to train, equip, and support an Air National Guard force at a level of combat readiness that enables it to immediately assimilate into the active force and be capable of conducting independent operations in accordance with unit wartime taskings. This estimate provides funds for direct expenses of aviation fuel for the operation of Air National Guard mission related aircraft; fuel for jet engine test cell operation, operation of aircraft ground support equipment; power equipment for communications units; and expenses incident to the base operations and maintenance of non-Federally owned Air National Guard installations that have training support as a primary mission. It includes funds for military technicians and civilian personnel services and benefits. It also includes funds for operations, maintenance, repair of facilities by contract, leased property rentals and service agreements. Travel and transportation expenses of full-time military, military technicians, civilian personnel, transportation of material, purchase and rental of data processing equipment and service are also included. Funds are also provided for commercial communications service, maintenance of base equipment, vehicles, medical support, purchase of supplies, equipment and services from Defense Business Operations funds and from commercial sources. It also includes funds for expenses of field training, exercises and maneuvers, training equipment, and supplies.

BUDGET ACTIVITY: OPERATING FORCESO1 Category: Air OperationsSubactivity Group: Aircraft OperationsI. Description of Operations Financed:

This activity group consists of all ANG flying units to include: strategic bomber aircraft; air defense forces for interception of hostile aircraft attempting to penetrate CONUS airspace; strategic refueling aircraft to extend the radius of operation of air defense and other refuelable aircraft; combat crew training aircraft for transitioning aircrews from one type of aircraft to another weapon system; tactical air forces which provide air-to-air combat, air-to-ground weapons delivery, reconnaissance capability, observation and target acquisition systems, and operational test and evaluation aircraft for ANG and AFR; rescue and recovery operations for retrieving downed aircrew members; strategic, tactical and support airlift forces for transport of personnel and equipment on an inter and intra-theater basis; and special operations forces in support of USSOCOM missions. O&M funding provides the necessary commodities for flying of Air National Guard related aircraft; civilian personnel, including military technicians who carry on the day-to-day training, maintenance, and administration of the Air National Guard; transportation cost for training conducted at deployed locations, and per diem; miscellaneous services and equipment. These are required to provide the day-to-day staffing needed to train, equip, and support an Air National Guard force at a level of combat readiness that enables it to immediately assimilate into the active force and be capable of conducting independent operations in accordance with unit wartime taskings.

II. Force Structure Summary:

This activity contains financing for the following force categories:

- Strategic and conventional bombers consisting of B-1B aircraft.
- F-15 and F-16 interceptor aircraft dedicated to CONUS air defense.
- KC-135 air refueling aircraft for strategic and general purpose refueling operations.
- F-16 combat crew training aircraft to transition aircrews from one aircraft to another.
- Tactical aircraft including, F-15, A-10, F-16, and OA-10 aircraft.
- EC-130E and HC-130 aircraft for SOF mission. (Budgeted for by USSOCOM)
- Rescue and recovery aircraft including HH-60s and HC-130s.
- Strategic airlift consisting of C-141 and C-5 aircraft.
- Tactical airlift comprised of C-130 aircraft
- Support aircraft consisting of C-21, C-26, and T-43 aircraft.

a. Reduced requirements in Air National Guard aircraft operations caused by fact of life changes in force structure and repricing of civilian workyears and flying hours based on actual FY 1995 factors. These funds are realigned to the Base Support subactivity to partially offset shortfalls in ANG base operations funding.	\$ - 844
6. FY 1996 Current Estimate	\$ 2,022,895
7. Price Growth	\$ + 31,362
8. Program Increases	\$ + 59,336
a. Depot Maintenance (FY 1996 Base, \$ 158,805) FY 1997 increased depot maintenance requirements primarily attributed to the beginning of an extensive program to rewire Air National Guard KC-135 air refueling aircraft. Depot maintenance requirements are also increasing to support scheduled aircraft and engine overhaul on B-1 bomber and C-130 tactical airlift aircraft.	\$ + 23,001

Activity Group: Air OperationsSubactivity Group: Aircraft OperationsC. Reconciliation: Increases and Decreases:

- b. F-16, Tactical Air (FY 1996 Base, \$ 411,385) FY 1997 mission change as four (4) F-16 air defense units and one (1) F-16 training unit convert to F-16 general purpose forces fighter units. Funding increase in FY 1997 to support these changes are partially offset by a reduction to twelve (12) aircraft at four (4) of these converting locations, as well as, the existing twenty (20) ANG general purpose forces units. This results in a loss of seventy two (72) F-16 fighter aircraft from the Air National Guard inventory by the end of FY 1997. (+ 268 workyears, + 5,550 flying hours)
- \$ + 12,998
- c. B-1, Strategic Bomber (FY 1996 Base, \$ 105,172) Impact in FY 1997 of the conversion action begun the third quarter of FY 1996 as the ANG activated its second B-1 bomber unit. This unit will continue its growth by adding two (2) more aircraft during FY 1997 while attaining a total of four (4) aircraft by the end of the fiscal year. When fully operational, this unit will have a full complement of eight (8) B-1B aircraft. (+ 217 workyears, + 402 flying hours)
- \$ + 11,144
- d. A-10, Tactical Air (FY 1996 Base, \$ 78,951) Full year impact of the A/OA-10 unit conversion from F-4G aircraft programmed for the fourth quarter of FY 1996, as well as, the annualized effect of a unit change from eighteen (18) PAA OA-10s to twelve (12) A-10 and six (6) OA-10 aircraft. (+ 74 workyears, + 3,168 flying hours)
- \$ + 6,363
- e. F-15, Air Defense (FY 1996 Base, \$ 86,153) Increased civilian workyears and flying hours to support the annualized impact of the FY 1996 conversion action as an additional F-15 air defense unit is established by replacing one F-16 air defense unit. (+ 130 workyears, + 427 flying hours)
- \$ + 5,830

9. Program Decreases

\$ - 178,190

Activity Group: Air OperationsSubactivity Group: Aircraft OperationsC. Reconciliation: Increases and Decreases:

- a. F-16, Air Defense (FY 1996 Base, \$ 155,443) Reduction in FY 1997 air defense requirements attributed to the annualization of the unit conversion in FY 1996 to F-15 air defense, plus four (4) unit conversions during FY 1997 from F-16 air defense to F-16 general purpose forces. These changes result in three (3) units of fifteen (15) aircraft each remaining to accomplish F-16 air defense requirements. (- 467 workyears, - 17,140 flying hours)
\$ - 59,292
- b. Depot Maintenance (FY 1996 Base, \$ 159,013) FY 1997 depot maintenance reduction caused primarily by decreased requirements for C-5 and C-141 weapon systems as scheduled work was performed on these aircraft during FY 1996. Smaller reductions also occur in FY 1997 for maintenance requirements on F-15 and F-16 tactical fighters.
\$ - 34,650
- c. F-16, Training Aircraft (FY 1996 Base, \$ 48,147) FY 1997 unit conversion from F-16 training aircraft to F-16 general purpose forces. FY 1997 is also impacted by actions undertaken during FY 1996 as requirements to support the training of Air National Guard F-16 pilots at our final F-16 training location were reduced and the increased responsibility for the training of pilots from foreign countries was assumed. (- 11 workyears, - 4,864 flying hours)
\$ - 19,513
- d. F-4G, Operations and Support (FY 1996 Base, 17,266) Full year impact of the unit conversion begun during FY 1996 from twenty four (24) F-4G aircraft to a composite A/OA-10 and C-130E unit. Civilian workyears and flying hours are reduced as this unit is fully converted to its new mission. (- 190 workyears, - 2,673 flying hours)
\$ - 17,547
- e. RF-4, Tactical Air (FY 1996 Base, \$ 9,372) Annualized impact of unit conversion begun during FY 1996 from eighteen (18) PAA RF-4C aircraft to six (6) C-130Es and two (2) Pacer Coin aircraft. FY 1997 reduction is attributed to civilian workyears and flying hours for the RF-4 mission being completely eliminated as the conversion is completed. (- 135 workyears, - 634 flying hours)
\$ - 9,589

Activity Group: Air OperationsSubactivity Group: Aircraft OperationsC. Reconciliation: Increases and Decreases:

- f. KC-135, Air Refueling (FY 1996 Base, \$ 433,288) FY 1997 change in funding requirements as a portion of the Air National Guard KC-135 flying hour program (2,440 hours) will be financed from the Defense Business Operations Fund Transportation (DBOF-T) business area. \$ - 8,589
- g. F-15, Tactical Air (FY 1996 Base, \$ 105,410) FY 1997 effect of unit closure and conversion begun during FY 1996 to the second Air National Guard B-1 bomber squadron. Civilian workyear reduction reflects the completed drawdown of F-15 functions at this location. (- 98 workyears) \$ - 6,635
- h. OA-10, Tactical Air (FY 1996 Base, \$ 17,719) Reduced requirements in FY 1997 attributed to changes begun in FY 1996 as an eighteen (18) PAA OA-10 unit was changed to a twelve (12) A-10 and six (6) OA-10 configuration, five units lost one (1) aircraft each, while the ANG unit converting from F-4Gs received three (3) OA-10 aircraft. During FY 1997, those five (5) units that lost aircraft in FY 1996 will sustain an additional reduction of two (2) aircraft at each location. (- 4,104 flying hours). \$ - 5,640
- i. Two Level Maintenance Manpower. The full year impact of technician manpower reduction occurring in FY 1996 as the Air National Guard began implementing fully the two level maintenance initiative. (- 102 workyears) \$ - 5,096
- j. C-130, Tactical Airlift (FY 1996 Base, \$ 355,658) Reduced FY 1997 requirements as five (5) ANG C-130H units are downsized from twelve (12) to ten (10) aircraft each. These reduced requirements are partially offset by the full year impact of actions begun during FY 1996, as one (1) C-130E unit and one (1) composite A/OA-10 and C-130E unit were established by converting RF-4 tactical reconnaissance and F-4G wild weasel units. (+ 128 workyears, - 3,247 flying hours) \$ - 4,920

O1 Category: Air OperationsSubactivity Group: Mission Support OperationsI. Description of Operations Financed:

This activity includes fuels for mission support operations; civilian personnel, including military technicians who carry on the day-to-day training, maintenance, and administration of the Air National Guard; transportation cost for training conducted at deployed locations; per diem; communications; miscellaneous services and equipment; and medical support and supplies. These are required to provide the facilities, equipment, and day-to-day staffing needed to train, equip, and support an Air National Guard force at a level of combat readiness that enables it to immediately assimilate into the active force and be capable of conducting independent operations in accordance with unit wartime tasking. This estimate provides funds for military technicians and civilian personnel services and benefits, travel and transportation expenses of full-time military, military technicians, and civilian personnel. Funds are also included for transportation of material, purchase and rental of data processing equipment and service, power equipment for communications units, and commercial communications service. Resources for maintenance of base equipment including vehicles, medical support, purchase of supplies, equipment and services from the Revolving funds and from commercial sources are also included. It also includes funds for expenses of field training, exercises and maneuvers, training equipment, and supplies.

II. Force Structure Summary:

This activity contains financing for the following mission support units and activities:

- 1st Air Force Mission
- Tactical Control Units
- Combat Communications Units
- Weather Service Units
- Aerial Port Units
- Medical Readiness Units
- Aeromedical Evacuation Units
- Civil Engineering Units
- Air National Guard Readiness Center

BUDGET ACTIVITY: OPERATING FORCESO1 Category: Air OperationsSubactivity Group: Base SupportI. Description of Operations Financed:

This activity includes normal support at all 175 Air National Guard locations, as well as host/base operating location activities at Buckley, Otis, Selfridge, Portland, and Griffiss. This activity also includes base communications requirements, and funding for environmental compliance, conservation, and pollution prevention.

II. Force Structure Summary:

This estimate provides the funding associated with manpower (Title V) authorizations and associated costs for base operation support for Buckley, Otis, Selfridge, Portland, and Griffiss locations, as well as, the ANG units at Forbes, Duluth and Kingsley for BOS activities, including these functional areas: administration, public affairs, safety, information management, contracting, comptroller, transient aircraft maintenance, base operations, supply, transportation, vehicle maintenance, security police, social actions, billeting, and the Air National Guard bands. Also, this activity finances Facility Operation and Maintenance Agreements (FOMA) which includes cost sharing with the States for utilities, service contracts, leases, airport joint use agreements, crash/fire/rescue services, custodial, refuse collection and disposal services, installation engineering services and other real property support (RPS), and security guard agreements which include physical security and services for Government owned facilities, equipment, and materiel at ANG installations.

V. Personnel Summary

Civilian personnel performing real property maintenance functions are included in the Base Support subactivity.

BUDGET ACTIVITY: OPERATING FORCES01 Category: Air OperationsSubactivity Group: Depot MaintenanceI. Description of Operations Financed:

Provides funds for depot level maintenance and repair performed on aircraft, engines, vehicles, and other major items of equipment. Includes all work associated with repair, overhaul, corrosion control, reclamation, assembly and disassembly, inspection testing, sustaining engineering, contractor furnished supplies and equipment, and Government Furnished Materials (GFM) procured from revolving funds in support of the Air National Guard. This activity includes funds from which the Air National Guard reimburses the Air Force Materiel Command (AFMC) for depot level maintenance on aircraft and other equipment. Depot maintenance is required to repair, overhaul and upgrade Air National Guard weapons systems to enable the Air National Guard to be capable of conducting independent operations in accordance with wartime taskings. This estimate provides funds for depot maintenance, including corrective maintenance of aircraft, equipment and accessories, electronic and communications equipment, vehicles, and other equipment. Depot level maintenance includes repair, overhaul, reclamation, manufacture, assembly and disassembly, inspection, testing, and service engineering including contractor-furnished supplies and equipment incident to maintenance service performed under contract. It also includes Government Furnished Materials (GFM) procured from Air Force Revolving Funds and consumed by the depots in support of the Air National Guard. Beginning in FY 1995 funding for aircraft and engine maintenance, and sustaining engineering have been transferred from the depot maintenance subactivity group to the aircraft operations subactivity to properly reflect total weapon system costs in one activity.

II. Force Structure Summary:

Depot maintenance funds will provide for the maintenance and repair of non-flying Air National Guard assets that will include electronic and communications equipment, vehicles, and other equipment items.

Subactivity Group: Recruiting and Advertising

I. Description of Operations Financed:

This activity supports Air National Guard efforts throughout the United States to recruit and retain quality enlisted and officer personnel into the ANG. It provides those essential resources to accomplish the recruiting mission and provides local, regional, and national advertising designed to increase public awareness and generate recruiting opportunities. Provides funds for reimbursement of expenses (out of pocket) incurred in the performance of recruiting duties, reimbursement of travel and transportation expenses incurred for official travel performed for recruiting purposes and civilian personnel costs associated with administration of the program. Also included are resources for local, regional, and national advertising to support the procurement and retention of quality personnel into the Air National Guard.
